Alexandria

WHO WE ARE

We have been operating for over 7 Years since our establishment back in 2017, proving undeniable experience in fleet maintenance management of heavy and commercial trucks.

Throughout our years of operations, we also managed to gain the trust of many fleet owners who endeavor for success, competence, and maintenance excellence, by entering into strategic relationships with many national companies, and executing their contracts across Egypt.

WHY TRUX ?

TRUX is detail-oriented, with focus on every bit of data through a cycle of various procedures such as compiling, enrolling, analyzing, setting up, processing, and controlling with a view to ensure that any decision taken is perfectly matching our clients requirements and KPIs.

Our highly qualified and well-trained quality team is always here to provide you with detailed specified reports, in order to insure that your unique business is effectively running the way you intend it to be.

TRUX members also follow a scientific methodology in managing maintenance services and processes; mainly through collecting all the detailed conditions of fleet operation (criticality, loads, etc.), in order to customize the perfect maintenance strategy for each client that contains cost, failure, and various parameters predictions, to measure the future fleet availability of varied business types.

We supply our clients with different ways to monitor the performance of their business in the form of clear digits and specific percentages, through our developed Matrix of KPIs.

TRUX has the capability and preparedness to supply you with expertise maintenance services for your fleet vehicles, through our workshops nearly in every governorate all over Egypt such as (Cairo, Alexandria, Giza, etc.), in addition to many other branches to be opened so soon.

We also provide our clients with delivery maintenance services in case of emergencies and sudden breakdowns, as soon as you contact our workshop in your governorate, by the help of our emergency repairing trucks.

WHAT IS OUR STRATEGY?

- 1** Supply the decision makers with all the required information to proceed the right action at the right time.
- 2** Enhance employee productivity & ensure data integrity.
- 3** Develop regular customized reports.
- 4** Improve efficiency through identifying cost reduction potentials.
